

YOU WILL NEED

- Gloss or matte paper (for best results, print on 120-140GSM white paper)
- Small pair of scissors or stanley knife and ruler
- Glue tape (found in most office supply/craft stores)
- Bakers twine (we got ours from www.emeraldandella.com.au)
- Bamboo skewers

HERE'S HOW

1. Print this sheet and cut each flag out just inside the dashed line so each flag has a white border all the way around
2. On the back of each flag, measure 1.5cm from the top and fold
3. Wrap your flags over a length of twine (ensuring you leave enough at each end to tie!) and using glue tape, seal the flag on to itself at the back
4. Tie to regular old bamboo skewers and insert into your wedding/engagement cake for the sweetest cake topper
